Part B for January 1925

SUBJECT

Recovery of contributions from the Municipalities by the Public Works Department

To
The Chief Engineer in Singapore
" Chairman Singapore City Improvement Trust Board
" Comptroller to Government

No L 4658-60 / Misc 170-21-21 dy 2nd Jany 1925

Directs that the Trust Board be required to pay to the D P W the establishment, tools and plant charges for the works of the Board executed by the D P W

G R S III—3]

ROUTINE NOTE

[To be used only for notes requisitions etc not intended for permanent record]

from the Chief Engineer for
Irrigation No M 9975
dated 1-6-23

Provincial Highway
Trust Fund Scheme
Water Supply Dept

1) The Chairman, Nagpore City
Improvement Trust has
deducted a sum of Rs 1034-10-
being 10% of the charges
incurred on certain works
executed by the Water Supply
Dept and he says that the
establishment and tools and
plant charges on these works
may be waived. The Chief
Engineer states that the
Contribution of the Chairman

A B Should routine notes be written on small slips the notes must be copied or slips pasted on this form

W D Regd (PP)—150000—8-21

6217

G R S III—3]

ROUTINE NOTES

[To be used only for notes requisitions etc not intended for permanent record]

is not terrible and that he may be asked to augment the amount without re-opening the question of increasing the establishment and tools and plant charges

2 The question appears to be one that has to be considered in the P W D as it relates to the waiving of recoveries due to the P W D and as action on the lines indicated by the Chief Engr can be taken only after the Member in charge's consent the request of the contractor and passes necessary orders

5) The chairman of the Mysore City Improvement Trust Bd contends that the payment of the establishment and tools and plant charges at 18% of the outlay may be waived in respect of the flower works amounting to Rs 57,405-1-9 detailed in the statement appended to the chairmans letter. The amount involved is Rs 1034-10-0 and the chief engineer is not in favour of waiving the charges. The contention of the chairman is not tenable as the chief engineer can not waive the recovery of the usual establishment and tools and plant charges in the absence of special orders of Govt for waiving the claim in each case.

10) As pointed out in the Fd Dept note above, the Board Chairman's Contention, that recovery of the usual percentage of establishment & Tools & Plant charges should be waived, is not tenable. Though the Trust Board works are financed entirely by Govt. the Board is an independent body with wide powers of expenditure and it is therefore only fair that it should meet all its liabilities and not claim exemption from payment on the ground that the amount due would be better spent on the interests of the Board's work.

Note—Contn. sheet

Serial No

If the Board itself had executed the work it would not have saved these charges. As the amounts due by the Board are reported to be long outstanding, the Chairman suggests that steps may be taken to adjust it is necessary to adjustment

6/9/23

11) The disproportion between Works outlay and the cost of Establishment and Tools & Plant of the Public Works Department is already very noticeable and if ~~it~~ claims to be exempted from payment of contribution on account of Establishment and Tools & Plant on account of works actually executed by the Public Works Department are conceded the disproportion will become more accentuated ~~arrangement unfair~~ Works carried out by the Public Works Department for other Bodies like the Trust Board do require supervision and use of Tools & Plant and if the cost of these items is excluded the outlay charged to the Bodies would also be understated. The bulk of the funds of the Trust Board is no doubt Government revenue and for that reason the share of Establishment and Tools & Plant charges to be debited in his case should be higher than the rate of 18 per cent which is allow

PUBLIC WORKS SECRETARIAT

Formation of the Special Water-Supply Construction Division.

Ref :—

(1) G O No. P W 378-426—E. 1974-2027, dated 9th September 1922, sanctioning, among other things, the amalgamation of the Sanitary Division with the Water-Supply Division, and fixing the number of Divisions as 11 in the re-organisation of the Public Works Department.

(2) Letter No. 718, dated 17th October 1922, from the Chief Engineer of Mysore for Irrigation, recommending the constitution of a Water-Supply Construction Division, for working out certain water-supply works.

(3) Note No. D. (1. 22. dated 6th November 1922, from the Public Works Secretary on the subject.

ORDER No. P W 968-994—E., DATED 23RD DECEMBER 1922.

All works relating to the construction of water-supply and drainage had been hitherto carried out by the Executive Engineer, Sanitary Division, but in the re-organisation of the Public Works Department, this Division was abolished being ordered to be amalgamated with the Water-Supply Division.

2. During his recent tour of inspection in Kolar, Tumkur and Chitaldrug District assurances were given by the Dewan that the projects for the supply of drinking water to Tumkur and Chitaldrug and the construction of sand filters for the Kolar Water-Supply would be undertaken immediately The Municipalities concerned have been agitating for the execution of these works for a long time and have also come forward with their contributions.

The Chief Engineer for Irrigation who was requested to formulate proposals has recommended the constitution of a Water-Supply Construction Division to work on the water-supply systems to (1) Chikmagalur, (2) Tumkur, (3) Chitaldrug, and (4) Kolar with a view to devote greater attention to these construction works which the Executive Engineer of the combined Division could not possibly be expected to do.

3 Government are accordingly pleased to sanction the formation of a Special Water-Supply Construction Division with the direction that the expenditure incurred on account of the Executive and office establishment should be debited to the projects, the execution of which is entrusted to the new Division.

Government are further pleased to direct that the notice served on Mr G V Rao be withdrawn and his services as a temporary Engineer retained for the remaining period and under the conditions of his original contract, *viz.*, five years from the 27th March 1920.

4. The Chief Engineer is requested to submit proposals regarding the staff required for the new Division.

S. CADAMBI,
Secretary to Government, Public Works Department.

Para 1 Ref.

29 In December 1922, the Executive Engineer of the Water Supply Department forwarded to the Chairman of the Mysore City Improvement Trust Board a statement showing the adjustment of accounts be ween the Board and the Water Supply Department According to this account, a sum of Rs 7,546-4-5 was due to the Board The Water Supply Department claimed a set off of Rs 5,748-1-9 for certain works executed for the Board This sum of Rs 5,748-1-9 claimed by the Water Supply Department included Rs 1,034-10-0 as establishment and Tool and Plant charges at 18% The Chairman accepted liability only to the extent of Rs 4,713-7-9 and claimed exemption to the charges at 18% on the ground that the funds of the Trust Board are wholly provided by Government and allotted also wholly out of the State Fund, that no portion of the Trust Board is contributed by any local body financially independent of Government and that the Board is for all practical purposes a quasi Government institution and worked by Government Officers Further he stated that the works for which the contribution is claimed involved no use of materials of stock but only a large purchase of ready made English materials from the open market which the con ractors supplied and it required hardly any engineering skill whatever

2 In submitting the papers for the information of Government, the Chief Engineer (Irrigation) says that the contention of the Chairman is not tenable as percentage of establishment charges had been fixed to contribution works not on the cost of labour only but on the cost of the whole work

OFFICE OF THE CHAIRMAN,
CITY IMPROVEMENT TRUST BOARD, MYSORE
Date 9th January *192* 3

From

RAJASABHABHUSHANA, DIWAN BAHADUR,
C SRIKANTESVARA AIYAR, B A, B L,
CHAIRMAN, CITY IMPROVEMENT TRUST BOARD
MYSORE

To

John Bhore, Esquire, A M I C E, M R San I
Joint Secretary, to the Government of His Highne
the Maharaja of Mysore, Public Works
Department

Sir

I have the honor to state that the Executive Engineer Water Supply Division, Bangalore, has sent with his letter No 802 dated 22nd December 1922 a statement showing adjustment of accounts between the Trust Board, and the Water Supply Department showing a balance of Rs 7 546-4-5 as due to the Trust Board out of sums deposited for certain major works previously executed and completed, and Rs 5 748-1-9 as due from the Trust Board to the Water Supply Department for certain minor works recently executed

2 The water supply works done on behalf of the Trust Board are apparently being treated as contribution works for Local Bodies, and the Water Supply Department have been charging 18 % of the total outlay for Establishment, Tools and Plant charges Regarding the w ving and refunding or giving credit to the Trust Board of the said 18% charges on the works already executed and paid for, a separate communication has already been made to the Chief Engineer in my letter No 1139 dated [illegible]th May 1922 and orders are awaited

3 Rs 5,748-1-9 shown in the above mentioned statement as due for the Trust Board includes a sum of Rs 1,034-10-0 as 18 % contribution for Tools and plant With reference to this, I beg to state that the Funds of the Trust Board are wholly provided by Government and allotted also wholly out of the General Revenues of the State and no portion of it comes from any local or other body financially independent of Government and the Board is for all practical purposes a quasi Government Institutio and worked by their own Officers As such there is no reason or necessity for the P W D treating the works of the Trust Board as works of such other local bodies requiring a contribution of 18 % for Establishment Tools and Plant charges If this 18 % is not waived it will only curtail the Trust Board Budget allotment to that extent, further crippling their resources pro-rata which eventually the Government themselves have to make good or provide extra funds to meet the deficiency By saving this sum of 18 % the whole amount allotted for the Board would be available for and better spent in the interests of the Board's works and that is a great consideration particularly at such time of financial stringency, when enough of liquid asset is not available even for meeting pressing and emergent demands

4 Besides the works under reference involved no use of materials at stock but only a large purchase of ready made English materials from the open market which the Contractors supplied which requires hardly any engineering skill whatever

5 Under these circumstances, and on such considerations Government have been pleased to order the waiver of 18 % contribution charges for several similar works executed before I have accordingly to request that you may be so good as to move the Government to kindly

waive the 18 % charges herein referred to amounting to Rs 1,034-10-0

6 The statement duly modified and countersigned for Rs 2,832-12-8 is also sent herewith for being forwarded to the Executive Engineer Water Supply Department with instructions to remit the sum of Rs 2,832-12-8 early to this office

I have the honour to be,

Sir,

Your most obedient servant

MYSORE PUBLIC WORKS DEPARTMENT,
CENTRAL OFFICE,

Dated Bangalore. 1— ...Mar... ...1923.

Z 6217—a

From John Rhodes, Esqr., A.M.I.C.E., M.R.San.I.,
Chief Engineer of Mysore, (Irrigation)

To

T.S.Jayarama Aiyar, Esq., B.A., B.L.,
Secretary to Government, Revenue Department,
BANGALORE.

W.170-21—7

Sir,

I have the honor to forward herewith, in original, for information, letter No 891 dated the 9th January 1923, from the Chairman, City Improvement Trust Board, Mysore, re the adjustment of accounts between the Trust Board and the Water Supply Department.

2 Government in their No.R.13967-9/M1.25-19-29 dated the 22nd June 1920, were pleased to direct that the Establishment and Tools and Plant Charges may be recovered only on the work portion of the estimate for water supply to Seringapatam Road Extension. The point raised by the Chairman is that 18% charges to cover - - Establishment and Tools and Plant charges on all Trust Board works executed by the Water Supply Department might be levied only on the work portion of the estimate. The Chairman deducts a sum of Rs.1,034-10-0, being the charges on account of Establishment and Tools and Plant on works executed by this Department and arrives at a sum of Rs.2,832-12-8 as having been due to them. The contention of the Chairman is not tenable, as percentage of Establishment charges has been fixed for contribution works not on the cost of labour only but on the cost of the whole work. Seringapatam

Road Extension work was only treated as an exception and that cannot be made a general rule for all works.

2. I request you, therefore, to address the Chairman to adjust the amount due without reopening the question of Establishment and Tools and Plant Charges for other works. The amounts due to the Trust Board are being borne in the Contribution Schedule and those due from the Trust Board in Miscellaneous Advance Accounts.

I have the honour to be,

S i r,

Your most obedient servant,

Proceedings of the Government of
His Highness the Maharaja of Mysore

Read—

Letter No 9975, dated 1st June 1923, from the Chief Engineer in Mysore forwarding in original letter No 891, dated 9th January 1923, from the Chairman, City Improvement Trust Board, Mysore, in re the adjustment of accounts between the Trust Board and the Water Supply Department

2 Letter No 3569, dated 11th September 1924, from the same officer, forwarding three statements showing the ~~Order Thereon—No~~ establishment, tools and plant charges levied on the District Boards, Trust Board, and Municipal Works, respectively

---

Order No 24658-60

In December [redacted] the Executive Engineer of the [redacted] Supply

Department forwarded to the Chairman of the Mysore City Improvement Trust Board a statement showing the adjustment of accounts between the Board and the Water Supply Department According to this account, a sum of Rs 7,546-4-5 was due to the Board The Water Supply Department claimed a set off of Rs 5,748-1-9 for certain works executed for the Board. This sum of Rs. 5,748-1-9 claimed by the Water Supply Department included Rs 1,034-10-0 as establishment and tool and plant charges at 18%. The Chairman accepted liability only to the extent of Rs. 4,713-7-9 and claimed exemption to the charges at 18% on the ground that the funds of the Trust Board are wholly provided by Government and allotted also wholly out of the State Funds, that no portion of the Trust funds is contributed by any local body financially independantof Government and that the Board is for all practical purposes a quasi Government institution and worked by Government Officers Further he stated that the works for which the contribution is claimed involved no use of materials of stock but only a large purchase of ready made English materials from the open market which the contractors supplied and it required hardly any engineering skill whatever

From the foregoing correspondence
Chief Engineer for Irrigation, Govt
agent Mysore Corporation

G R S. G/38]

GENERAL AND REVENUE SECRETARIAT

(*Continuation sheet draft form.*)

The Chief Engineer has stated the the Chairman would pay 18% charges on the work portion only on the ground that only such charge was recovered on the estimate for water supply to Seringapatam in G O No R 13957-9/M1 25-19-24 dated 22nd June 1920 and is of opinion that this contention of the Ch irman is not tenable as percentage of the establishment charges has been fixed for contribution works not on the cost of labour only but on the cost of whole ork and that the Seringapatam work was only treated as an exception and that this cannot be made a general rule for all works.

Government agree with the Chief Engineer in the view expressed by him as above and are accordingly pleased to direct that the Trust Board be required to pay the establishment, tools and plant charges
